#### GREAT BRITAIN AND THE LOTTERY LOAN

The Manufacturers News says that practically all the continental countries of Europe are projecting so-called lottery loans, and the news comes from London that Great Britain also is seriously considering to take advantage of the country's spirit of speculation and contemplates the placing of a sim-

llar national loan Raising money by this means is as old as financial history itself. It was immensely popular during the period when Venice controlled the world's finances and it has lived on and on and

prospered more or less ever since. The government of France is planning a \$12,000,000,000 na- noon from the Concord M. # SCOTT'S THEATRE

TODAY, THURSDAY AND FRIDAY

Now listen folks and keep your ear close to the ground; read every word of this ad because it will enlighten you that the management of Scott's Theater has booked for five consevutive days, Nov. 24, 25, 26, 27, 28, the greatest picture of all time; doubtful if another picture of such greatness will ever be produced again. It appeals-like a tale of true love. It thrillslike a burst of glorious music. It inspires-like a message from a master. Come, live a life in an hour.

George Loane Tucker's Production

# The Miracle Man

A Paramount-Arteraft Picture from play by Geo. M. Cohan A Whole Life in an Hour

'The Miraele Man" crowds into one picture more erperience, good and bad, than most people

The fory begins in New York's Chinatown, where a gang of clever crooks-the "Frog," the 'Dope." Tom Burke and his "girl" Rose-conduct a thriving "business" of fleecing unwary

One day Burke reads of an aged deaf and bling man up in the country, who is said to heal the

affing by faith. He decides to exploit the "fake" and, with the help of his pals, make rich pickings from the "Miracle Man's" gullible patients. Rose, assuming a role of sweet innocence, pre ands to be a distant relative to the "healer" and goes to live in his cottage. The "Frog." a counterfeit cripple, crowls to the patriarch, untwists himself before a gaping crowd, and walks. The "Dope" acts as "promoter of mir-

cles" and Burke "accepts" the contributions. But to the amezement of the rogues, the old man's simple belief works worders. They find

that their "fake" is bringing health and happin s to hundreds

One by one, Burke loses his own gang. The gir pretending to be good, BECOMES good. In their new surroundings, the "Frog" and the "lope" grow out of their old selves into MEN. Through jealousy and suffering from the gently influence of the "Miracle Man," even the hardened, cynical Burke learns that money and vice are not enough,

The end is a happy beginning—for Tom and Rose, for the "Dope" and his village bride, for the "Frog" and his little "adopted mother"—o a new road that goes straight.

A class of 29 graduates received Cody vs. Warren Brockhouse et tion in the business district at 5 diplomas at the commencement lege held Tuesday night. The Postmaster. large auditorium at the Congregational church was filled by the audience which assembled for the interesting program given. F. B. Mauck, principal of the college, presided and addresses were made by H. E. Read, president of Brown's Business Colleges, and W. H. Howland, manager of the colleges. Randall's orchestra played a number of selections and the Overseas Quartet from St. Louis added very materially to the musical interest of the occa-

At the close of the regular program the members of this quartet, who are really veterans in enthusiasm of the occasion.

After this event an informal reception for the graduates and their friends was given in the lecture room and altogether the occasion was one of educational and social interest.

Mr. Read introduced his adday afternoon and evening. dress to the graduates with a All members are invited to number of timely stories and departed quite materially from the stereotyped address to students who are leaving school halls 'You have had a dream," he said ienced it myself. It is universal. It haunts the minds and hearts of That dream is of the future beckons you on with the hopes of achievement thru the coming years. It is nothing more summoning you onward and up-

your later life. You as young people today face a new world. The conditions of living are different from those of a few years ago and there have been achievements in these last few decades which would have been thought impossible by our ancestors. The telephone, the telegraph, the automobile, the motion picture, all these things have come in my own Redemption Fund with U. S. Treasurer .... 10,000 692,311.95 memory and no doubt the day is near at hand when travel thru the air will be a matter of common happening.

Some Maxims. "There are three important things out of a large group that I might mention as worth while for you to especially remember at this time. Be rn the job' is the first maxim and much depends upon how well you carry out this thought. Secondly, there is nothing more important in the every day affairs of your life than a genuine love for work. It is this love of work which forms one of the distinctions between men and mere animals. It is the difference between savagery and civilization. To real civilization comes until man finds that it is better in which he stands. That indeed is the greatest day in the life of the child or the young person when he becomes thoroly interested in work and points to some bit of achievement as of his accomplishment, and is proud of

"Then in the third place give the fullest importance to plain ordinary character. If you enter business life never work for man whose business character can be questioned. Don't work for a corrupt man or a corrupt business, for no matter how humble your position there, you are part of that business. And i there is nothing else from my remarks that you remember, I hope this thought will stay with you, that the desires and aspirations and habits that shape your young er years are the ones that will mark you as a man or woman when years of maturity come." Diplomas Presented. Mr. Mauck then expressed his

pleasure in introducing Mr. Howland, who presented the diplomas to the graduates. The speaker emphasized the need for efficiency and devotion to work, illustrating his meaning by the often quoted sentence that "if a man can make a better rat trap than his neighbor that the world will make a pathway to his door! even tho he dwell in a wilderness," He said that things long counted impossible have happened in these latter years and that the young people of today face new conditions. However, in these new conditions the same basic principles dominate that have characterized worth while efforts ace the world began. Then Mr. Howland quoted the words of nolmes' "Chambered Nautilus" as typifying high ambition. With other well chosen phrases he presented the diplomas as Mr. Mauck

### Relief in 20 Minutes

Science added Menthol, Wintergreen and other healing oils, the fumes of which, inhaled, give instant relief inside, where the real irritation is. At the same time the goose-grease and turpentine set up a counter-irritation that draws away the soreness.

Wonderful relief is felt almost instantly by the inflamed lungs, throat and nasal passages.

MEN-THO-ELE is the name of this new-old remedy-a positive relief for the simple ailments and a first-aid for the more serious ones. It relieves the most stubborn cold, usually with one application. Fever subsides, the phlegm is loosened and restful, healing sleep follows.

### THE OPERA HOUSE TO BE REPAIRED

Contract Shortly to be Let For Placing Both Hotel Part and the Other in Good Condition.

The people of Jacksonville and vicinity will welcome the news of the intended work on the opera house building. John Anderson, the owner of the property has made arrangements for the work and it is shortly to be undertaken. The hotel part is to be wholly renovated and fixed up and the theater part likewise.

This will be welcome news all desirable entertainments were obliged to shun Jacksonville as there was no payhouse here and ceived on Friday, Dec. 5. hotel accommodations have often House wanting a room, but not only was none to be had, but the clerk pointed to a group of men vain and said he had telephoned the other hotels and found them full and even some private houses which he had often fallen back on seemed to be full.

Repairs Will be Costly. A considerable sum of money is was frankly stated by the owner, to secure a sum of \$11,000 from A. A. Curry to be expended for this work.

The roof will be renewed, various interior improvements made and the building put into a safe and habitable condition.' A considerable portion of the sum will be used in the opera house weeks hence until another play house is available for Jacksonville. It has been a matter of general regret that there has been no large place for general assemblage since the opera house has been closed, and for that reason special interest attaches to the announcement that Mr. Anderson will soon carry out this improvement program.

It has been known for some too that the owner of the building was quite willing to dispose of the property and the fact that he will make it a "going" concern may lead to the early disposition of the property.

Peoria Man Gains More Than Twenty-fice Pounds Taking

"I have gained over twenty-five ounds since I commenced taking Canlac, and troubles that have een causing me to suffer for twelve long years have been comletely overcome," said James C. Sanderson, who lievs at 110 outh John Street, Springfield. Ill., while talking to a Tanlac presentative the other day.

Yes, sir, Tanlac fixed me up all right," continued Mr. Sanderson, "and I'll tell the world that it is the best medicine on earth to build a man up when he is all run down like I was. There wasn't a time during all the twelve years that I could sit down and eat a meal without suffering afterwards. Why, I would be so bloated up with gas at times I could hardly breathe, and would have the worst sort of cramping pains in the pit of my stomach. I had actually gotten to the point where a little soun was about the only thing I could eat, and just had to lay off from the job altogether. I was very much discouraged over my condition and I knew that unless I soon got hold of a medicine or treatment that would help me, I would not live much longer.

"Now that was the condition I was in when I commenced taking Tanlac. Before I had finished my first bottle I knew that I had found the right medicine at last. My appetite came back, and I noticed that what I ate agreed with me. I began to sleep better and instead of feeling tired and worn out in the mornings, I felt rested and refreshed. Well, sir, I just stuck to Tanlac until I have now taken five bottles, and now I am as hale and hearty as any man in this country. All my troubles have been completely overcome and I can do as much hard work as I ever did in my life. I never would have believed that a medicine would bring a man out like Tanlac has me, and you can just ut me down as a booster for this onderful medicine as long as I

The plan for the school that Sergt. York will establish are in the hands of the York Foundation, the trustees of which are leaders in business and education in Tennessee. The school is to be a school, not a "college," or "un iversity," nor even an "academy." It is to take children from the very first grade up through high school, with the additional advantages of practical training in agriculture and industry. Special stress will be laid on homemaking for the girls.

The school will be of large service to a wide sweep of territory in the mountains and will be so arranged that students coming from a distance will find living osts at a rock-bottom minimum. To realize his dream of seeing better schools in the mountains Sergt. York has declined offers that would have made him one of 1. The market was mainly up-Specialty fortnight. Exceptions to the advance included rails, coppers and Providing local utilities. Reasons for the backwardness of these groups so obvious as to excite little com-

altho one sharp setback in the ment. Advices touching upon the course of the coal conference at Washington were less hopeful in tenor but the various coal carrying shares reflected this only in minor measures.

Pools seemed to have little difficulty in advancing the motors and their subsidiaries; also steels equipments, oils, tobaccos and leathers. General Motors was the outstanding feature at an extreme rise of 29 points, gains elsewhere ranging from 3 to 10 points. Several ordinarily obscure or

dormant industrials in the steel displayed unusual activity and strength, but many gains suffered partial or entire cancellation on realizing for profits in the later dealings. Sales amounted to 1,050,000 shares.

The entire bond market was reactionary, several new low records being made by liberty issues with extreme weakness in local tractions. Total sales, (par value) aggregated \$22,500,000 an unusually heavy turnover.

Even Lather and Rubbing Are Now Passe.

Up-to-date Men Are Using Barbasol for Shaving.

Life is truly becoming simpler. Another "habit" has been found a fallacy. All these years men have thought the shaving brush a necessity. With it we have wasted hours of our valuable time working up the lather on our beards preparatory to the daily shave.

Now, they say, this was lost mo-tion; a waste of time. The shaving brush is dangerous, carries germs of fatal disease, such

as anthrax. And, the alkali, which must be a part of soap in order to make lather, rritates the face and makes it sore. Barbasol, the antiseptic heard softner, does away with all these, makes the skin healthy and free from all shaving irritations, smart, and sore-

ness, and gives a better shave.
